Containers

Containers, disposable, polystyrene, sterile

- All Sterilin polystyrene containers are CE marked to comply with the In-vitro diagnostic medical devices directive (98/79/EC)
- Aseptically manufactured from cytotoxicity tested FDA approved virgin polystyrene
- Containers are leak tested to BS EN14254 and most sizes have a choice of metal or plastic caps

CO/16670

Containers, disposable, polypropylene, sterile

- Designed specifically for sampling within the food and industrial laboratories.
- Manufactured from shatterproof polypropylene for maximum safety
- Available in a range of colour combinations for ease of identification
- Will float when dropped into aqueous solutions
- Deep threaded cap to ensure sample containment
- Extensive range from 30ml to 180ml
- Aseptically manufactured

CO/1620

Containers, screw cap, polypropylene

- Useful autoclavable wide neck containers with liner-less screw caps.
- Excellent chemical resistance.
- Ideal for storage of samples, powders, animal feeds etc.
- Imprinted with S.P.I. recycling codes.

Containers, snap on polythene lid, polystyrene

- Clear polystyrene containers with maximum sample visibility
- Full range of sizes suitable for all applications
- Polyethylene airtight snap-on lids for quick easy use
- Lightweight for easy handling
- Complete range of sizes allows optimum use of storage space
