

Refrigeration

Refrigerators and freezers, basic

These models provide basic refrigerated storage at a lower price. Lower cost production methods have been used, and certain convenience features omitted, in order to offer the best price possible without significant sacrifices in the important areas of function and reliability.

Refrigerators, laboratory

Spark free refrigerators for laboratory and general use where there is a concern that volatile, flammable materials or components might be stored. These spark free products are constructed without exposed electrical components or sources of arc, spark or heat within their chambers to ensure there is no possibility of ignition internally.

- Sparkfree safety interior
- Automatic defrosting
- Low energy
- Removable shelves
- Door Lock

RF/75116

Refrigerators, Labcold Pharmacy display

A glass door pharmacy refrigerator designed for dispensary, surgery, ward and general use for the storage of drugs and vaccines under controlled conditions in line with the "Code of Ethics and Standards" of the Royal Pharmaceutical Society of Great Britain. Where necessary to achieve the required temperature control internal air circulating fans are fitted. Temperature display, alarms, max/min temperature recording, and door locks are standard and all models are CFC, HCFC and ammonia free.

Conforms in full with UK Department of Health "Green Book" requirements.

- Conforms to RPS guidelines
- Digital temperature display
- Records max and min temperatures
- Hi/Lo temperature alarm
- Lockable
- 100% Ammonia-free

IN/2510

Refrigerators, test

The RC and matching RF test cabinets are equipped with air circulation grids on sidewalls and on the bottom to secure accuracy of +/- 1°C (measured on a 125g test package in accordance with European standard EN28187). All cabinets in this range are supplied with a one years parts only warranty.

The exterior is made from white polyester coated sheet steel, whilst all inner surfaces are constructed from grade 304 stainless steel. The interior is designed so that there are no dirt traps and any spillages are easy to clean. Each shelf can hold up to 50 kg in weight and is removable for ease of cleaning. The door is lockable and self closing, it also features easy to change push in type gaskets.

Safety is assured by a versatile alarm and control systems. The easy to read temperature display

incorporates both audible and visual high/low temperature alarm.

Temperature range +2 to +40°C. Complete with 12 months parts warranty.

Fridge Freezer

This is the latest generation of Labcold combined sparkfree laboratory refrigerator and freezer. Providing all the routine storage required on a floor area no bigger than a standard fridge. For laboratory and general use where there is a concern that volatile, flammable materials or components might be stored now, or at some point in the future. Both refrigerated and frozen samples can be stored and accessed within the same small floor area.

- Automatic defrosting in fridge
- Drawers in Freezer
- CFC and HCFC free
- Lockable
