

## Loops, needles and spreaders

### Loops, needles and spreaders

Disposable, sterile loops eliminate cross contamination risks and are available in a choice of rigid or flexible polymers. The loops are packed in tamper-evident paper peel pouches and colour coded for easy recognition. Inoculation needles allow colony picking or inoculation of other media and L shaped spreaders allow spreading of sample across media.

Cat.No.	Code	Description	Colour	Inner Pack	Case Qty	Guide Price
LS/16602	SL1H	1µl loop, rigid	Dark green	10	800	36.72
LS/16604	SL1S	1µl loop, flexible	Pale green	10	800	36.72
LS/16606	SL10H	10µl loop, rigid	Dark blue	10	800	36.72
LS/16608	SL10S	10µl loop, flexible	Pale blue	10	800	36.72
LS/16610	QL1	1µl Quadloop with sphere	Green	20	1000	54.19
LS/16612	QL10	10µl Quadloop with sphere	Blue	20	1000	54.19
LS/16614	SN20	Inoculation needle	Violet	20	1000	47.07
LS/16616	SPCS01	L shaped spreader	Blue	1	500	94.11
LS/16618	SPCS05	L shaped spreader	Blue	5	1000	94.11

### Loops and spreaders

Highest quality disposable loops using cadmium free pigments and high impact styrene. Flexible and non-shatter proof. Gamma irradiated to ensure sterility. Both size loops are also available in a firm loop which is crystal styrene. All loops are supplied in cases of 1000 with an inner pack of 20.

Spreaders are in clear styrene, designed for the ease of spreading liquids or cultures to ensure uniform distribution across the media surface.

Cat. No.	Description	Inner Pack	Case Qty	Guide Price
LS/26602	1ul Sterile Clear, flexible loop	20	1000	84.00
LS/26604	1ul Sterile Crystal, firm loop	20	1000	84.00
LS/26606	10ul Sterile Green, flexible loop	20	1000	84.00
LS/26608	10ul Sterile Crystal, firm loop	20	1000	84.00
LS/26610	L Shaped Spreader (5 per bag)	5	1000	90.00
LS/26612	L Shaped Spreader (Single Wrap)	1	1000	90.00
